

Update Release Notes for version 5.52 - August 2021

Please be sure to install the updates when prompted. Your device must be online to receive the updates.

New Features

- Braintree (PayPal) Integration.
 - Braintree has been added as a payment processor.
 - PayPal QRC.
 - Venmo.
- Receipts
 - Full page invoices can now be configured and customized in OpSuite for the point-of-sale.
- Promotions
 - Reward Coupons have been added to OpSuite as a promotion type.
 - Coupons can be printed and scanned during a transaction.
- User notifications:
 - Point-of-sale notifications have been updated to be “sticky” - they stay on the screen to ensure visibility.
 - Notifications have been modified to be more user friendly.

Bug Fixes and Updates

- Held transactions: Various issues have been resolved regarding held transactions
 - Tax reason codes are now being recalled correctly.
 - Stored Values are no longer activated when a transaction is held.
 - If a customer’s price level is changed after they hold a transaction, the new price is reflected when the transaction is recalled.
 - Sales reps are now saved to a transaction when held.
 - Orders can now be held.
 - If a transaction level discount campaign ends while a transaction is held, the discount price will no longer be available when the transaction is recalled.
 - Cashiers will receive an error message when they attempt to hold an AR related transaction
 - Held transactions with transaction level discounts will be recalled with transaction-level discounts instead of line-item discounts.
 - Recalled transactions will now include donations and/or shipping amounts that were added during the initial transaction.
- Purchase limits:
 - Fixed a receipt issue where negative amounts were shown on some return receipts.
 - Fixed the notification message for when multiple configurations are used with the same category.
- Customers:
 - Customer images now show up consistently when a customer is selected.
- Syncing:
 - Point-of-sale initial sync / location change optimized.
- Employees:
 - Reactivated employee pins are now able to login successfully.
