

## **Update Release Notes for version 5.51 - April 2021**

*Please be sure to install the updates when prompted. Your device must be online to receive the updates.*

### **New Features**

- Purchase Limits
  - Multiple categories can now be set to a single combined limit
  - Customer records now show limit balances
  - Limits can now be printed on receipts
- Campaign Bundles: Bundles setup within Opsuite Campaigns Wizard can now be used at the point of sale.
- Yinzcam Discount Integration: Customers using Yinzcam can apply automatic discounts from public facing apps.

### **Bug Fixes and Updates**

- Campaign rewards are now correctly applied to the lowest priced qualifying items when the campaign's maximum redemption is greater than 1.
- An incorrect PIN entry when offline no longer hangs on attempting to login
- Multiple backorder prompts are now handled properly when tendering
- Held transactions no longer have issues with stored value, price levels, discounts, tax reason codes, or orders.
- Account receivables mobile user interface has been improved.
- Logging in with Android 8.1 and 9.0 has fewer issues
- OpSync service improvements for intermittent internet connectivity
